**Subject:** GI bill information

Jon,

We have checked with the tech colleges and the UW about the following and both are okay with the following, but only if we can make the provisions that are also below:

✓ They are fine with the 1606 and 1607.

076 022813 They are fine with the change to prohibit someone from using more credits than intended at several campuses.

They understand that HEAB will only have a limited amount of money and they will deal with covering the cost of the rest.

They are both okay with delaying until January 1, 2010, the implementation of the provision in the budget that requires veterans to switch to Webb.

### Provisions

They would like a provision to limit obligation to pay "hold harmless" payments to vets who switch from Montgomery to Webb and get the addition 12 months—they want it limited to vets who currently have less than 12 months remaining on Montgomery otherwise all vets who are on Montgomery now could wait until they exhaust benefits and then switch and add an additional 12 months on Webb, thus costing the state the additional "hold harmless" payments for every vet.

6/11/2009

Also, the techs would like the HEAB payments to come once a year in June, as opposed to at semester because if the money runs out at semester, the techs will be worse off compared to the UW because they have fewer students in the fall.

Thank you!

**Subject:** Prorate provision

Gordon: This is what I was thinking:

Specify that in June of each fiscal year, HEAB would determine the total amount of reimbursements due to UW and technical college students under this provision and a similar provision under the Wisconsin Technical College System. If the total amount of reimbursements exceeds the amount of available funding, authorize HEAB to prorate the payments to the students. Specify that if payments from HEAB to the students are prorated, then the UW Board of Regents would make payments to students who were enrolled at UW institutions equal to the difference in the amount of reimbursement required under this provision and the amount of reimbursement paid by HEAB.

I'm not sure how that would fit into the existing language so if you need to make modifications, that's okay. Call me if you have any questions -- I'll be around.
